WO 03/086570 A1

(54) Title: SEPARATOR

(57) Abstract: A separator for separating multiphase flow, the separator comprising: an inlet for a multiphase fluid; a plurality of outlets, at least one for each selected separator phase; and a main annular tubular bore through which the multiphase flow is caused to flow and to separate into lighter and heavier fluids, the bore having an outlet for each of the lighter and heavier fluids.
